Yes. I'm in today, and I'll look at it. Earl is out, but I don't usually send the drafts to him. He'll be back Tuesday. Lee

Tito & Eugene, Attached is a series of files that constitute our proposed amendment to the Dimock Action Memo. We are providing this to you for advance HQ review and comment before we send an official copy seeking HQ concurrence. Anything you can do to expedite review of this document would be appreciated and we apologize for being several days later than promised in getting this to you. Questions on the document and/or any mark-up can be referred to either OSC Rich Fetzer or Eastern Response Branch Chief, Jerry Heston. Thanks for your continuing support. dennis.
